BULLETIN

On Board the Airship R-100, Aug. 14.—(AP).—The ten newspaper men on board the British dirigible today turned to and worked with the crew helping to pump fuel into the tanks in an effort to set a new world's record for the flight across the Atlantic ocean.

The officers expressed high hopes of being able to surpass previous marks for the eastward voyage. Everything is going on perfectly on the big aircraft.

St. Hubert Airport, Montreal, Aug. 14.—(UP).—The world's largest dirigible, R-100, sped before a stiff wind down the St. Lawrence valley early today, setting a pace that held promise of a record-breaking flight across the Atlantic ocean on its return trip to Cardington, England.

The big dirigible, with one of its motors crippled, raced over Father Point at 1 A. M. (EST) making 60 knots before a 45-mile-per-hour wind and under favorable skies. At that time the ship had covered some 320 miles four hours and 30 minutes after it departed eastward from St. Hubert Airport at 8:30 P. M. Wednesday.

Its average speed of about 72 miles an hour indicated the R-100 would reach the Atlantic coast several hours before noon, depending on whether Commander R. B. B. Colmore followed his proposed route to Cape Breton.

Prospects Excellent  
Meteorologists reported the prospects for the flight excellent, with good weather and tail winds to speed the craft at least half way across the ocean. The ocean route which Commander Colmore planned to follow was roughly along the track of Canadian steamships on their eastward voyage.

After taking aboard its dozen passengers in addition to the officers and crew of 45 men, the R-100 left the airport mooring mast half an hour before its scheduled time of departure and flew toward Montreal.

A few minutes later its red lights appeared to watchers in Montreal, ten miles away, and the ship flew over the southeastern section of the city.

Promises Return  
Commander Colmore had described the return as "a normal flight" when he told Canadians that the R-100 would return after spring "as soon as the snow clears," and the first stages of the voyage indicated the craft had on excellent chance of breaking the Graf Zeppelin's speed record across the Atlantic.

Five minutes after the passengers, each with 30 pounds of luggage, had gone aboard, the lights of the dirigible flashed and the motors were started.

The ropes that bound the dirigible to earth fell away one by one, a bell rang in the momentary silence and the R-100 was released from the mast and shot upward, its motors barking and roaring. Within a few minutes only twinkling tail lights were visible as His Majesty's airship sped homeward.

Aboard the dirigible were a bunch of Canadian pennies sent by Lord Willington to King George and a little basket of Niagara peaches for the prince of Wales. The two packages were the only freight aboard, although a pay load totaling about \$500,000 in freight had been offered for the trip.

## KIDNAPING OF TWO WOMEN IN CHI., RALEIGH

Negroes Take Eastern Girl From Escort; Posses Search

Raleigh, N. C., Aug. 14.—(UP).—Milton Rogers of Angier reported to Raleigh police today that Viola Edwards of Elizabeth, who he was riding in an automobile, was dragged from the car by three Negroes and carried off shortly before 1 A. M. A posse was organized at once to search for the missing girl.

He had met the girl only last night, Rogers said. After driving around Raleigh, he decided to take her home. While en route the kidnaping occurred, he said.

At dawn, posses under the direction of Deputy Sheriff Clyde Whitaker began searching the woods surrounding Garner, N. C., where Rogers said the kidnaping occurred.

WIFE KIDNAPED  
Chicago, Aug. 14.—(UP).—Police were searching today for two men in an automobile who kidnaped Mrs. Ingrid Wilbott last night as she was walking with her husband in Sedgewick Street.

According to the story which Wilbott, a janitor, told Hudson Avenue police, the kidnapers stopped their car beside the couple. Leaping out, the struck Wilbott on the head with revolvers, knocking him down. Mrs. Wilbott was forced into the car, which then disappeared.

Wilbott told police that he was married two years ago, and that his wife had come to Chicago from Denmark three months ago.

GOV. EMMERSON MAKES PLEA TO WAR SECRETARY

Asks Permission To Increase Flow Of Water To Canal

Washington, Aug. 14.—(UP).—Governor Emmerson of Illinois appealed personally to Secretary of War Hurley today for permission to increase the flow of water from Lake Michigan into the Chicago Sanitary Canal for a period of a week or ten days as an emergency measure.

Hurley replied he would inquire into the legal aspects of the question, adding he did not know whether he had authority to permit an increased flow in view of the Supreme court decision placing a maximum limit of the amount of water the Chicago Sanitary District may take from the Great Lakes. He requested legal and engineering advisors to submit their opinions on this point, which were expected within 24 hours.

Emmerson told the Secretary the sewage problem in Chicago had become very serious because the drought had nearly dried up the water flowing in the sanitary canals. He pointed out the health of 4,000,000 people was endangered by the present situation.

During their conversation, Emmerson and Hurley also discussed the Illinois waterway dispute, but there was no announcement concerning the results of their conversation.

Waterway Work To Be Continued Soon  
Washington.—An agreement to use about \$1,000,000 of Illinois state funds to enable the federal government to continue work on the Illinois waterway project has been reached, Governor Louis L. Emmerson declared after a conference with Secretary of War Hurley.

Emmerson said he expected work would be resumed "very soon."

The 1929 production of natural gas and refinery gas is estimated at 2320 billion cubic feet. The total length of gas pipe lines in the United States carrying this gas is over 55,000 miles.

ST. LOUIS ENDURANCE FLIERS SET MARK AT 1,000 HOURS AFTER THEY PASSED HUNTERS' MARK BY 24 HOURS

St. Louis, Aug. 14.—(AP).—Recrowned refueling endurance champions, Dale (Red) Jackson and Forest O'Brien were coasting "down hill" today in their record breaking flight, with each hour they remained aloft bringing them additional fame and fortune.

As they left the former record of the Hunter brothers 2 hours behind them this morning, Jackson and O'Brien sent down a message that "we are still going strong—just grinding off the hours like nobody's business."

They had piled 24 hours on to the previous record at 9:52 A. M. (CST) when they had been up approximately 579 hours. They were heading their endurance ship, the Greater St. Louis, toward a 1,000 hour goal.

The morning communication included a request for new batteries for the radio transmitter, ordered yesterday, but forgotten in the excitement attending the breaking of the record.

They also ordered a new wobbler pump used to transfer gasoline from the main tank in the fuselage to the wing tanks.

They did not state whether or not the old pump had failed, but it was believed it had begun to show the strain of constant wear and that the airmen wished to replace it as a precaution.

The refueler made the 130th contact in delivering the new pump at 9 A. M. Gasoline, oil and breakfast had been delivered previously along with congratulations from Jackson's parents and many others including Miss Irene Hunter, sister of the Hunter brothers.

## GOVERNORS MEET WITH PRESIDENT —TALK DROUGHT

A Voluntary Organization For Relief Proposed By Hoover

By Paul R. Mallon  
United Press Staff Correspondent

Washington, Aug. 14.—(UP).—A typically Hoover plan for setting up a voluntary drought relief organization has been prepared by the president for submission today to the 12 state Governors of their representatives who will gather with him around the Cabinet table at the White House.

Each Governor or his representative will be requested to appoint a drought commissioner from his state to cooperate with the federal government, the Red Cross, the railroads and the affected areas.

These 12 commissioners will compose an unofficial federal commission.

The conference was scheduled to begin at the White House at 2:30 P. M. President Hoover invited James C. Stone and Charles S. Wilson, Farm Board members, to join Secretary of Agriculture Hyde, Chairman Legge of the Board and other officials at the conference.

To Present Report  
At the conference with the Governors, Mr. Hoover is expected to make public a new more comprehensive report on the extent of the drought damage. The survey, compiled for the President by the Agriculture Department and its county agents, is designed to show just what relief is necessary.

Two of the 12 state executives invited to be present at the conference are Governor Harvey Parnell of Arkansas and Flen D. Sampson of Kentucky. Parnell has appointed H. T. Harrison, Little Rock attorney, and T. Roy Reid, Assistant Director of Extension Work at Arkansas University, to represent him. Sampson has appointed Senator Robinson, Republican, Ky., to act for him.

The Governors who have stated their intention to be present are: Henry S. Caulfield, Missouri; Louis L. Emmerson, Illinois; Harry S. Leslie, Indiana; Myers V. Cooper, O.; William G. Conley, West Virginia; John J. Pollard, Virginia; John E. Erickson, Montana; Clyde M. Reed, Kansas; John Hammill, Iowa; and Arthur J. Weaver, Nebraska.

Hoover Confident  
Mr. Hoover will ask all his guests to remain for dinner so the conference may be concluded tonight.

Administration leaders are confident the conference will accomplish the purpose for which it was intended. They are most interested now in reports of profiteering which have come to them from various sources.

Hyde has taken the position the reports of profiteering are exaggerated. After hearing F. P. La Guardia, Repn., N. Y., charge late yesterday that vegetable prices were being increased 25 to 30 per cent in New York City, Hyde asserted price increases for certain kinds of foods were unavoidable.

As the Governors gathered here for the conference, it was reiterated that official agencies are unable to prevent profiteering except by publicity, unless there are combinations for such purposes in violation of the Sherman and Clayton anti-trust acts. These could be proceeded against under those laws.

3,000 Chinese Are Drowned In Flood  
Pieping, Aug. 14.—(AP).—Three thousand Chinese are reported to have drowned in the Pichungshin district, 40 miles north of Shanghai, where rains have flooded 1000 villages, causing great damage and washing out the rail line.

American golf players are estimated to outnumber British four to one.

## AMBOY ARCH, KYTE CR. BRIDGE SCENES OF CRASHES EARLY TODAY; ONE WOMAN IS HURT

Mrs. Wm Poppino Of Sterling In Amboy Hospital Today

Mr. and Mrs. William Poppino, Miss Luella Reed and John Elssesser of Sterling figured in an automobile crash in Amboy at 12:15 this morning in which all sustained cuts and bruises which necessitated their removal to the Amboy city hospital, and the Chevrolet coupe in which they were riding was practically demolished. They were returning from a dance at Mendota and as they entered the business section of Amboy, Elssesser who was driving, apparently became confused at the slight turn in the route 2 paving and crashed headon into the west pier of the Amboy arch.

Mrs. Poppino was the most seriously injured and was still at the Amboy hospital today while the others had returned to their homes in Sterling. Mrs. Poppino was thrown into the windshield by the force of the crash and her right arm was badly cut. Two long gashes, which laid the flesh open to the bone, required more than a score of stitches. She was also cut and bruised about the face and body.

Elssesser sustained a long gash over the right eye and was rendered unconscious when thrown against the steering wheel. He was in a unconscious condition for almost two hours after the accident. He also sustained bruises about the body.

Driver Confused  
Miss Reed and Poppino, the latter the owner of the car were the least injured. Both sustained minor cuts about the face and arms and were bruised about the body. Poppino stated that the car was traveling at a speed not in excess of 30 miles an hour at the time of the crash. Elssesser who was at the wheel, was aware that a turn was made in the paving, but is said to have become confused as he neared Main street, turning first one way, then the other and crashing headon into the arch.

Last night's crash is the second in six weeks in which cars have been badly damaged in crashing into the west pier. Amboy city officials today were considering the advisability of placing a reflector danger signal on the pier to prevent further accidents. About six weeks ago a Buick sedan, loaded with about 300 gallons of alcohol, crashed into the arch in a badly wrecked condition and was abandoned by the driver.

Truck Hit Bridge  
Joseph Lazarus, driving a large International truck east on the Lincoln Highway, almost stripped one side of the steel bridge over Kyte creek at 5:30 this morning when the steering gear of the truck dropped as he approached the bridge and he lost control of the heavy truck which turned to the left, crashing into the steel superstructure, tearing away the steel guard rail and ripping a large hole in the north side of the bridge which caused the floor of the bridge to settle.

The truck was the property of the Levy Circulation Company, of Chicago and was returning to the city empty. The front end of the truck was badly wrecked and it had to be towed to a Rochelle garage after being pulled away from the twisted bridge girders. Lazarus escaped without a scratch, sustaining only minor bruises.

Blocked Traffic  
Traffic east and west on the highway was at a standstill for about two hours. State Highway Officer Hal Robert and Clyde Ross of the state highway department at this city responded to a call and went to the scene, where other highway employees assisted in detouring the early morning traffic until the wrecked truck could be removed. Heavy traffic was being detoured south through Flag Center today until the twisted steel beams can be removed and replaced with other steel which was ordered from Clinton.

Lazarus slid the wheels of his truck as it came onto the bridge until the crash and apparently lost control of the heavy machine. Only pleasure cars were being permitted to cross the structure this forenoon, all heavy traffic being detoured. Had the truck been traveling at a high rate of speed, it would have dived off the bridge into Kyte creek.

Navy Will Reduce Recruiting Quotas  
Washington, Aug. 14.—(AP).—Because 2,400 men will be made available about October first through de-commissioning of the battleships Florida, Utah and Wyoming, as provided under the London treaty, the Navy has decided to cut its recruiting in half for three months.

To keep the Navy at 84,500 men, 1,600 are admitted per month to balance expiring terms of enlistment. The 2,400 men made available through decommissioning the three battleships will be released for other assignments over a period of three months, and recruiting activities reduced to admit 800 men per month for the period.

ELKS PICNIC IS ON  
Hundreds of Elks from Dixon and surrounding lodges were gathered at the Twin City pavilion park this afternoon for the Dixon lodge's annual day in the woods. Perfect weather added to the enjoyment of the Elks.

BAND CONCERT TONIGHT  
The regular weekly concert by the Dixon Boys Band, under the direction of Earl Senneff, will be given at the court house square at 8 o'clock this evening, an exceptionally fine program having been prepared for the occasion.

REYNOLDS CO. ELECTS  
The annual election of officers of the Reynolds Wire Company, of this city was held yesterday at which time the following officers were elected for the ensuing year: President—John G. Ralston; Vice President—P. R. Harvey; Treasurer—J. Frank Bennett; Secretary and Sales Manager—L. G. McDonald.

FUNERAL TOMORROW  
The funeral of Fred B. Hardesty, whose death Tuesday night was announced in last evening's Telegraph will be held at his late home, 115 Water Street, at 1 o'clock tomorrow afternoon and at 2:30 o'clock at the Washington Grove Christian church. Rev. B. H. Cleaver officiating, and with burial at the Washington Grove cemetery.

HURT THIS AFTERNOON  
John Gosholt of Sterling was taken to the Dixon hospital at 2 o'clock this afternoon suffering with a number of bad cuts about the head and face sustained when a Reo car, property of Attorney Robert Besse of Sterling and driven by his son, Kenneth, was forced off the road about five miles west of this city at 2 o'clock today, and overturned. The car was badly damaged, but young Besse was not badly injured.

Kingsford-Smith Leaves Hospital  
Middleburg, Holland, Aug. 14.—(AP).—Wing Commander Charles Kingsford-Smith, Australian transatlantic flier, today had made such satisfactory progress in his recovery from a recent operation for appendicitis that he was able to leave the hospital. The flier spent the day making plans for his departure.

WEATHER  
Middleburg, Holland, Aug. 14.—(AP).—Roger Q. Williams, who with Captain Lewis A. Yancey, flew to Spain last summer, today telegraphed Captain Harry Jones, in charge of a hangar here that he would "arrive today."

Jones said that at Williams' request he had ordered 1,000 gallons of gasoline.

Williams did not divulge his intentions but it was believed he was planning to take off from here on a trans-Atlantic flight.

Explosion Of Gas Pump May Be Fatal  
Litchfield, Ill., Aug. 14.—(UP).—W. F. Matthews, 33, Mt. Olive, is in a critical condition at a local hospital today, suffering from burns received yesterday when a gasoline pump exploded as he and his son, Ernest, 14, were unloading gasoline from a storage tank.

The son was also seriously burned but he is expected to recover. Cause of the explosion has not been determined.

Fish and many insects can be frozen without destroying life.

OFFICES IN COUNTRYMAN BUILDING ENTERED AND DESKS RANSACKED BY SNEAK THIEVES DURING THE NIGHT

Prowlers ransacked four offices in the Countryman Building during the night, secured about \$10 in cash and stamps, overlooked a \$7,000 pay roll and left a trail of cigarettes and cheap cigars, it was discovered when the offices were opened this morning for day's business. Edward Zoelner of the state Department of Highways was the first to discover the activities of the petty thieves when he discovered that the lock on his desk had been forced and the drawers ransacked.

About eight dollars was taken from desks in the state Department of Highways offices and the pay roll amounting to about \$7,000 in checks was undisturbed. No supplies or instruments were molested.

In the offices of the E. N. Graybill Agency desks were forced open and ransacked, about \$150 in change being taken.

## PAPER TELLS OF TRAGIC DEATH OF MRS. VIOLA TUBBS

Former Amboy Woman's Drowning in Washington Detailed

The body of Mrs. Viola Tubbs, former resident of Amboy, arrived in that city this morning from Aberdeen, Wash., for the funeral service and interment. A complete account of the sad accident which cost the life of the well known young woman was received today from Aberdeen, Wash., and was as follows:

"Falling into the treacherous waters of North River, Mrs. Viola Tubbs, 24, lost her life in a fishing trip today. Her body was recovered this afternoon some 24 hours after the accident occurred."

Mrs. Tubbs was a resident of Brooklyn and the wife of Harold E. Tubbs, cook at the Saginaw camp.

"Finding the body brought to a close a wide search by passes of North river men who at first believed that she had become lost on her way from the river. The body was brought to the Elmering parlors tonight."

"The accident took place in Pacific county near the county line."

Slips Off Ledge  
"Mrs. Tubbs and her husband started out yesterday on a fishing trip and progressed to the south branch of North river. She fished from a ledge near the junction of Dean creek while her husband continued upstream. Although the stream is shallow nearby there is a deep hole some 25 feet in depth where the water swirls in an eddy by the ledge."

"Mr. Tubbs reported that he had heard his wife yell but he was so far away he could not distinguish the cry and believed that it was a message that she was returning on the trail. He followed back and when he did not find her at the river side, believed that she had started back."

"He returned and when he learned that she had not reached home, raised an alarm. Loggers of the district combed the area until late at night without finding trace of her."

Search River Woods  
"Posses set out at dawn this morning and combed the woods and river bank and the officials of Pacific county were summoned to assist. This afternoon the body was found in the deep hole where she had been fishing and it became apparent that her last shout was one of terror as she fell into the waters and was drowned."

"Mrs. Tubbs had lived in Brooklyn for two years and the family was well known in the North river district. The accident took place about noon Wednesday, August 6."

Intimate Williams Plans Ocean Flight  
Old Orchard Beach, Maine, Aug. 14.—(AP).—Roger Q. Williams, who with Captain Lewis A. Yancey, flew to Spain last summer, today telegraphed Captain Harry Jones, in charge of a hangar here that he would "arrive today."

Jones said that at Williams' request he had ordered 1,000 gallons of gasoline.

CENTRAL WEST AND SOUTH GET NEEDED RAINS  
Showers Worth Millions Dollars Reported Ending Drought

Chicago, Aug. 14.—(UP).—Rain worth millions of dollars saturated a wide area of the drought-stricken central west and south today, saving the remnant crops withered by intense heat and one of the most protracted dry spells in the nation's history.

The downpour, general and soaking covered the Ohio river valley, bringing relief and rejoicing to farmers in Kentucky, Tennessee, southern Illinois and Indiana, Maryland, Virginia and West Virginia.

Precipitation averaged nearly an inch over the central western states visited by the rain, while from the three southern states came reports that the moving storm had dropped 11 inches of moisture and probably would continue.

During the day the rains became more general and the Weather Bureau received notice that showers had begun to fall over central Pennsylvania.

Amounts of rainfall already recorded for the central west region showed 96 inches at Evansville, Ind.; 70 inches at Louisville, Ky.; 124 inches at Terre Haute, Ind.; 82 inches at Nashville, Tenn.; and 104 inches at Springfield, Ill.

NANKING SEEMS DOOMED BEFORE REDS' ADVANCE  
City Virtually Defenseless as Communist Horde Marches On

Nanking, Aug. 14 (AP).—Communists today were reported advancing against this Nationalist government capital and the sister cities of Hankow, Hanyang and Wuchang, 600 miles up the Yangtze river from the sea.

This city was virtually defenseless and appeared doomed should the Reds continue their threatened attack. Few defenders remained within the thirty-two mile wall encircling the capital, practically all troops having been drawn to fronts on which the government and northern rebels are fighting for supremacy in China.

Uneasiness was rife here as peasants turned Communists and appeared in surrounding towns armed with rifles.

Many suspected Communists were summarily executed at Hankow, where sandbag defenses were being erected and machine guns mounted. Thousands of terrified Chinese poured into the city, frightened from their outlying homes by the invaders.

A dozen foreign warships were anchored at Hankow, affording foreigners a means of escape in case of emergency, many foreign commercial vessels also were anchored there ready to evacuate their nationals.

Changsha, Hunan province capital recently sacked and burned by Communists, was reported recaptured by Reds.

FOUR DIE IN TORNADO  
Naples, Italy, Aug. 14.—(AP).—Four persons were killed and about 60 persons were injured when a tornado struck the booths of the agricultural market here this morning.

Illinois Flier Is Held By Mexicans  
San Diego, Calif., Aug. 14.—(AP).—An airplane flown from Illinois to Agua Caliente, Mexico, by W. D. Wood of Normal, Ill., was held by Mexican police last night.

Wood was accompanied by three women passengers. None of the four was held and all were believed to be at Agua Caliente pending advice from Mexico City authorities as to the disposition of the airplane.

THREE FOUND MURDERED IN LONELY ROAD  
Chicago Racketeer Is Slain; Canadian Woman Killed

Underworld rule by bullets was charged with five additional murders today in the middle west.

Three gangsters were assassinated near St. Paul, one near Chicago and another at Detroit during the night.

The St. Paul slayings of Sammy Stein and Frank Coleman of Kansas City, and Butch Myers of St. Paul, were believed to have announced entry of the George "Bugs" Moran gang of Chicago, into the struggle for control of northwest liquor traffic.

The three victims were found on a road to an inn where Moran's followers had been reported organizing.

In a Chicago suburb, Danny Vallo, once sought in the massacre of Moran gangsters, was shot down by two men as he stepped from an automobile.

The peace in Detroit's underworld was ended when Carl Stiliana, 35, was killed while driving an automobile.

The three outbreaks apparently had no connection except that all were presumed of have resulted from gang rivalry.

St. Paul, Minn., Aug. 14.—(UP).—The assassinations of three men, identified as gangsters, along a lonely road near the inn where George "Bugs" Moran's Chicago followers had been reported active, gave the Twin Cities their first underworld massacre to solve today.

One of the victims was believed for a time to have been Moran himself. The Chicago gang leader apparently was safe at a Brainerd, Minn., summer camp, however.

The three men who were shot to death during the night apparently while en route by automobile to White Bear Lake, location of the inn the Moran gang was reported to have taken over, were identified as: Sammy Stein, alias Hecker, Minneapolis and Kansas City character; Frank M. Coleman of Kansas City, former chauffeur for Solle Weisman, Kansas City gambler.

Butch Myers of St. Paul, known as an underworld hanger-on.

Discovery Accidental  
Major General W. F. Rhinow, head of the Minnesota Bureau of Criminal Apprehension, stumbled upon the massacre while driving to White Bear Lake on an investigation of the Moran gang's activities.

Rhinow came upon a bullet-riddled automobile parked at a crossroads near the Wildwood amusement park. He started a search which led to discovery of the bodies.

Coleman was found in the automobile, dead. Powder burns on his head implicated he had been shot by a revolver held a few inches from his head. A revolver which Coleman was believed, had

### THE SUN BURNS LOW

THE sun burns low against the earth,  
Its long flames searing half the sky;  
But somewhere in the outer space  
A waiting moon stands whitely by.  
The fire goes out in purple smoke,  
And the moon steps up the old wide way;  
With slow and silver-printing feet,  
She treads the ashes of the day.

**Almond Circles**

2-3 cups butter  
1 1/2 cups sugar  
3 eggs  
1 teaspoon lemon extract  
1/2 teaspoon vanilla  
1/4 teaspoon salt  
2 tablespoons cream  
2-3 cup shredded almonds  
2 1/2 cups flour  
1 teaspoon baking powder  
Cream butter and sugar. Add other ingredients. Chill dough. Break off bits of dough and flatten down 3 inches apart on greased baking sheets. Bake 10 minutes in moderate oven.

These are delicious cookies and are suitable to serve with chilled beverages or frozen desserts.

Fruit butters should be cooked very slowly.

Over-cooking of jelly makes it "gummy" and "stringy."

### Have You Heard?

The children will enjoy the chore of sprinkling the lawn if you get a few gadgets to intrigue them.

In this class are the faucet birds, pert, imaginative little fellows, robins, wrens, blue jays or what have you, done in solid brass, highly polished and shining. They sit atop the faucet and you turn them this way or that to open or shut the spigot.

### Jeanne Lois Fisher Had Party Tuesday

Jeanne Lois Fisher, daughter of Mr. and Mrs. R. W. Fisher, celebrated her fourth birthday at their home, 503 West Seventh street Tuesday afternoon. A delicious luncheon of ice cream and cake was served by the little hostess. The little tot departed late in the afternoon, wishing Jeanne Lois many happy birthdays. She received many pretty gifts from her little friends. Those present were Janet Jacqueline Beach, Kenneth, Betty and Alon Faye Pentland, Bobby and Stanley Knapp, Jack Fisher, Betty Cable, Peggy Nelson and Jacqueline Fisher.

### MRS. DANA AND DAUGHTER ARE GUESTS HERE

**YOUR CHILDREN**  
by OLIVE ROBERTS BARTON  
1930 BY NEA SERVICE

We all turn vagabond in summer—in mind at least. The claims of desk or housewife can't hold our minds from wandering into those delightful dream worlds of woods and sea and mountain—our noses sniff the spicy air of pine, the salty—but that's only repeating. We all know the pictures conjured up by wanderlust.

Children are the genius as ourselves, second editions. They too have their own deep, deep bitters by it than we are, for they are more imaginative, more romantic.

They tire if regular routine, and regular play. They tire of playing house and keeping store and building the shanty, and running for base. A tremendous nostalgia overtakes them; that perplexing feeling of wanting something they can't explain gets so strong sometimes that everything else loses its flavor. It amounts, as we all know, to a real physical ache. Probably it takes heat and fleecy white clouds in a blue sky, the summer sounds and summer smells, to bring out our primitive instincts—the wandering urge of our neolithic ancestors.

### Threshers' Picnic Yesterday at Lowell

Yesterday all the farmers and wives and families, and their wives from Chiverton north of Woono, who are through threshing enjoyed a picnic at Lowell park. The men who managed the machines, Mr. Weigle and wife of Nachusa, Mr. Fruit and wife of Franklin Grove and Wilbur Spratt and a boy friend, were members of the merry throng of about eighty picnickers, also. All spent a happy day. At noon a tempting luncheon was served. And in the afternoon an enjoyable program was given, the committee in charge being Mr. and Mrs. Harry Newcomer, Mrs. Bernie Hoover, C. E. Morgan and son DeWitt Morgan. Games and stunts were features of the afternoon. Each year the picnic by this happy crowd grows more enjoyable and this time it was voted one of the best.

### Nachusa Unit of Home Bureau Held Meeting

The Nachusa Unit of Home Bureau met at the home of Mrs. Grace Shipper Monday afternoon.

Seven members and two visitors were in attendance. Plans were made to hold a picnic at Lowell Park, the 27th. All members and their families are invited to attend.

Miss Green and Mrs. Bothe gave the lesson on "Cooking Utensils" which was enjoyed by all.

### Mrs. Johnson's Birthday Happily Observed

Mrs. Harry Johnson was the victim of a very happy surprise last evening, yesterday being her birthday. Mr. Johnson had planned the surprise about ten friends gathering at the home and surprising the lady of the house. Radio music was a feature of the occasion and delicious refreshments of ice cream and cake were served, completing the pleasure of all present.

### Trip to Starved Rock Honored Birthdays

The John Schafer family, accompanied by Caroline Woodell of Chicago, and David Reige of Palmyra, enjoyed a trip to Starved Rock yesterday and Deer Park. The trip was given in honor of the birthdays of Harold Schafer and David Reige, both of whom were celebrating birthdays yesterday. It proved a happy day for all participating.

### Writes Text Book For Young Farmer

Urbana, Ill.—(A.P.)—Prepared for the use of farm youths and their vocational agriculture instructors, a text-book entitled "Farm Corn Projects" has been written by two experts of the College of Agriculture at the University of Illinois. The authors are Prof. W. L. Burlison, head of the department of vocational agriculture.

The editor's preface states that Dr. Burlison has undertaken to help student and teacher convert the handbook into a safe farm-corn rule book, exactly adapted to the student's home conditions or ambitions.

Prof. Nolan has devoted his efforts toward helping the teacher develop the handbook into an adequate study-guide book. Many high schools are planning to use the book for their vocational agriculture courses this coming year, the authors said.

Prof. Burlison was formerly associate agronomist at Oklahoma Agricultural and Mechanical College, and associate editor of the Orange Judd Northwest Farmstead, Minneapolis.

Prof. Nolan was born and reared on a farm in Illinois. He has taught agriculture in secondary schools and colleges and was state supervisor of agricultural education in Illinois at the time the work was established in 1918. He served for two years in that capacity.

For five years he was assistant superintendent of agricultural extension in the state and has been head of the department of teacher

training in vocational agriculture since 1920.

### TEMPORARY FINANCIAL LEADERS

Out of the automotive industry and the war boom emerged new faces in finance. Some of them came after the manner of meteors, others merely as new names in a new age. It appears now that some of their leadership was more assumed than earned and there is a call for financial leadership to which the nation can tie with confidence and understanding.

"The long boom that really persisted, despite minor relapses, from 1922 to 1929 gave us many new financial and industrial leaders," says the Magazine of Wall Street. "Some of them, in the language of the street, were false alarms. They came to the top because they were light weights. Their inexperience and shallowness had much to do with excesses of the period. Personnel, as well as assets, requires liquidation. The present trying period is not only one that will automatically eliminate misfits from business leadership positions, but it is one that will bring real leaders to the top."

Wall street has chafed under some of this assumed leadership, which has had much of the advertising of the period. Within itself for years it has looked upon certain men as having a divine right to rule finance, just as a certain Mr. Baer testified in an anthracite coal investigation nearly thirty years ago, that some sort of divinity placed the coal mines in the trusteeship of himself and other benevolent persons, and thereafter was known as "Divine Right Baer."

Notwithstanding this attitude of divine right in finance and the chafing of the old families who dominated banking and industry so long, it is possible that some of the stars that have been shining in the financial firmament are meteors without stability.

We now are certain that strange economic doctrines were promulgated. Not all the old measuring sticks are applicable to new conditions, but it is impossible to cast off fundamentals without endangering our foundations.

Just as politicians undertake to shine by discarding fundamental principles in government and bringing new ideas to unthinking people, so do charlatans of finance undertake to set up their own principles of economics, which work only temporarily and are torn assunder by economic earthquakes. Economic principles are no more immune to attack than are political principles, and often the two are interwoven.

Whatever else may be said of old-time leadership in finance, we are inclined to credit it with greater regard for fundamentals that has been shown by the new lights that have been shining.

"The men who are bearing the burden today in business are the creators and the able and commercial and industrial executives," says the Magazine of Wall Street. "The sham executive whose prestige rested on spectacular speculation and the upthrust of prosperity is passing. The former are the men who will guide business restoration, and having been tried and tested in defeat, will hold a steadier course than the fair weather boys who are being retired."

### ILLINOIS LEADS IN CONCRETE ROADS

New York and Illinois divide the leadership among states in high-type surface highway mileage, according to latest figures of the federal bureau of roads, which cover existing highway construction at the end of 1929.

The bureau of roads summary covers many types of highway, but sand clay gravel and waterbound macadam are classed together as "low type surface," while bituminous macadam and intermediate types up to Portland cement concrete, which is the Illinois standard, are described as "high type."

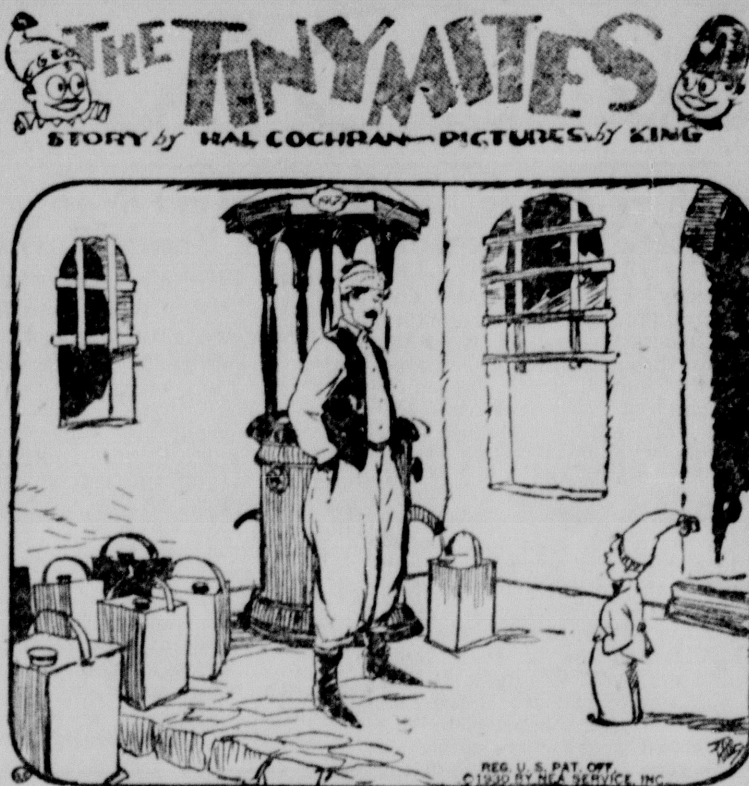

New York leads in the high type comparison, with 8965 miles, while Illinois is second with 6900 miles. Dividing the "high type" of construction into its several classes, the bureau finds that at the end of 1929, Illinois had 6751 miles of Portland cement concrete against 4890 for Pennsylvania, the next state, while New York was third with 4634. In addition, however, New York has 3743 miles of bituminous macadam by penetration, the lowest division of the high type classification.

The total nonsurfaced mileage remaining in the state highway system of Illinois is 2988 of the total of 9889 miles. With approximately 3 1/2 percent of the state highway mileage in the United States included in its road system, Illinois now has more than 9 percent of all the high-type surfaced road mileage.

Improvement of highways by the state last year included construction of 614 miles of cement concrete highway, surfacing of 624 miles of earth road and grading and draining of 175 miles more.

(READ THE STORY, THEN COLOR THE PICTURE.)

While looking up and down the street who should the little Tynmites chance to meet but one fine little fellow who was smiling from ear to ear. "Oh, look," cried Carpy, "that looks grand. He has some melon in his hand. I've eaten then at home I didn't know they had them here."

"Why sure they have and they're real good," replied the Travel Man. "You should just taste a piece and, by the way, I guess I'll buy 'bout two. We'll cut them up in slices and each hold a slice in our hand. I know that two will be enough for everyone of you."

They found a fruit store right nearby and shortly heard the owner cry, "Fine melons! They are very cheap. Come, let me sell you some. I'll cut them up, all set to eat and

you will find they are a treat." "But we want some," Cloway cried. "Start slicing. Here we come!"

Into the store the promptly went and all ate to their hearts' content. The man then told them of a well that was not far away. Said he, "It's wonderful, we think, and there you all can get a drink. If there's a line-up waiting you can loaf around and play."

"We thank you," Scouty said and then the whole bunch went ahead and found the well. A group of men were standing at its side. The Travel Man said, "When they're through with drinking, that's what we will do." The Tynmites found the water very cooling when 'twas tried. Some big oil cans stood by the well. A man was kind enough to

tell the Tynmites that folks used to use big crocks in day of old. "But now they use these cans," said he. "They're just as handy as can be. They're easier to carry and can keep the water cold."

(The Tynmites inspect a big plane in the next story.)

### ERNEST SETON'S BIRTH

On Aug. 14, 1860, Ernest Thompson Seton, famous American artist, author and lecturer, and one of the originators of the Boy Scout movement in America, was born at South Shields, England.

Following his education at Toronto Collegiate Institute and at the Royal Academy in London, Seton served as naturalist to the government at Manitoba. He soon became prominent through clever stories about animals, although such veteran naturalists as John Burroughs and experienced woodmen criticized him for ascribing to animals mental and moral characteristics not evinced in real life.

As one of the founders of the Boy Scout movement in America, Seton, later started the outdoor life organization known as the Woodcraft League. In 1904 the organization was introduced into England with the aid of General Baden-Powell.

Among his writings, largely illustrated by himself, are "Wild Animals I Have Known," "The Trail of the Sandhill Stage," "Lives of The Hunted," and "Woodcraft and Indian Lore."

# Here's our Answer to your Question

"What Mileage will my Tire Dollars buy?"

16,000 MILES over all kinds of roads . . . and sidewalks are still amazingly smooth and free of cracks and age marks. Never wears tires so age-free as Silvertowns, due to their special, long-lived, long-wear tread and sidewall rubber compound.

NO SIGNS HERE of cupping or uneven wear! Silvertowns have a dense, tough tread that wears down slowly and evenly. Water-curing makes the last bit of tread rubber wear as slowly as the first, makes the tire tough clear through.

SEE THAT EDGE? Sharp and clean, even after enough service to satisfy most any tire buyer. No question here of traction or protection against skidding. That's why the Silvertown tread is admitted to be the finest tread pattern in the field.

Publicly established Mileage Records show you what Silvertowns can do on your car

LOOK at the picture above . . . study the captions just below it. See the condition of this Silvertown after 16,000 grueling miles.

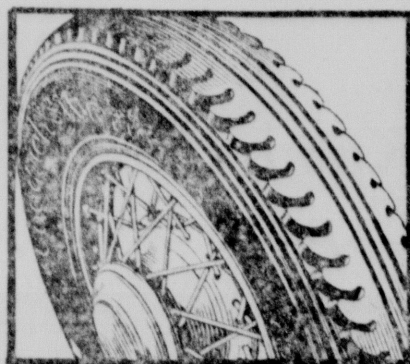

There's the answer to your question! There's the proof of what Silvertowns can do!

This Silvertown is one of the 62 that toured the country with the Silver Fleet last year. It was photographed after 16,238 punishing miles.

And look at it! Know any other tire that looks as good after that much service?

We have the blood brothers of this tire in stock right now. Casings identical to it in ability to stand up under terrific punishment. Come in . . . see them . . . price them.

They cost less than you think . . . and, mile for mile, are the lowest-priced tires you can buy. Yes, we have your size!

# BETTY NUTHALL EXPECTED SHE'D BEAT THE QUEEN

English Tennis Star Is  
Disappointed Helen  
Wills Withdraws

By TED VOSBURGH  
Associated Press Sports Writer  
Forest Hills, N. Y., Aug. 14.—(AP)—To 18-year-old Jimmy Nuthall, his sister, Betty, 19, is one of the greatest women tennis players in the world and may yet succeed Helen Wills Moody as queen of the courts—but he can beat her.

Young Jimmy admitted as much with a smile at the West Side Tennis Club after practice session. "Yes, I can beat my sister," remarked this 6 foot, 1 inch English boy who won the junior championship of his country last year. "That is the difference between the men's and the women's game. But Betty surely has improved greatly since last year."

"You know, some of the papers in England are saying my sister is 'just a bundle of nerves and all through' such things as that!"

"Imagine it! All through at 19. My word!"

As a matter of fact my sister has improved steadily every year and I think that if you will follow her play in the United States women's championships here next week you will agree with me."

This was revealed a secret incentive for England's "Bouncing Betty" to play her best in the forthcoming tournament.

When the Nuthalls, Jimmy and Betty, started for the United States two weeks ago, they set no less a goal than a victory over the great queen herself.

Mrs. Moody's subsequent decision not to compete this year came as a disappointment. Miss Nuthall spoke for herself on that point.

"Of course I would much prefer to have Mrs. Moody in the tournament. There would be more satisfaction in winning. But I am sure you have other good players who will be extremely difficult to beat."

Young Jimmy's actions on the court indicated clearly that the Nuthall threat is a double-barreled one and

that in addition to Betty being a leading contender for Mrs. Moody's crown, her kid brother may cause some trouble in the men's championships beginning Sept. 6.

Jimmy also is to play in the national doubles tournament at Brookline, Mass., Aug. 23, paired with Ted Avery, the young Cambridge collegian who appeared in this country last season; and he and Betty probably will pair in mixed doubles. So says her 18-year-old chaperon.

## Ogle Farm Bureau Picnic Sept. 20th.

September 20 has been set as the tentative date for the annual county picnic of the Ogle County Farm Bureau. While the date is not final it appears that it will probably be picked for the big get together of the farmers of the county. September 20 is the date of the art extension committee of the University of Illinois visit to "The Pines" State Park. The committee has signified its desire to join with the farmers of this county at the state park. Frank B. Wilson and C. C. Stengel are serving on the committee.

# SHAMROCK V IS HERE FOR RACE FOR "AULD MUG"

Lipton's Challenger Is To  
Be Made Ready For  
Coming Races

By TOM HORGAN  
(Associated Press Sports Writer)

New London, Conn., Aug. 14.—(AP)—The task of preparing the Shamrock V, Sir Thomas Lipton's newest challenger for the America's Cup, began today at the electric boat work yards.

She is the fifth challenger the dauntless Sir Tom has sent across the Atlantic in quest of a trophy won by the yacht America in 1951. Originally the cup cost 100 guineas. Today, if it were not for the "old mug's" glamorous history, no cau-

tious pawn broker would loan \$50 on it. Yet four or five millions will have been spent this year because of it when Sir Thomas sail away in the fall, victorious or numbering his fifth defeat.

Although she was beset by head winds throughout her voyage across the Atlantic, the Shamrock V dropped anchor here last evening after a 26-day land-to-land passage from England.

All superfluous fittings must be stripped from the Shamrock V before she is ready to cross the starting line off Newport, R. I., Sept. 13 against a defender yet to be selected from four American candidates.

The most difficult and important task in connection with Shamrock's fitting out will be the putting in place of the top of her 162 foot mast. She came across under jury rig using only about 110 feet of her two-piece spar. The other shorter section must now be raised aloft and fitted as a fishing pole is put together.

Sir Thomas is expected to arrive in New York on a liner next Saturday. His private yacht, the Erin, will

steam there to meet him and bring him here.

Boat yard officials estimate that they will have the challenger ready for the water again in a week or ten days.

colder. An operation later will doubtless be necessary.

# Heavy Rain Storms In Central Illinois

Springfield, Ill., Aug. 14.—(UP)—A heavy rain accompanied by a violent electrical storm, brought relief today to central Illinois' crop stricken area. The rain which began late last night continued for several hours, breaking the drought which combined with the intense heat of the last month had done millions of dollars damage to crops.

Practically every point in this section of the state reported rainfall, and in most instances it was accompanied by an electrical or wind storm.

Downtown streets in Springfield were flooded and four buildings were damaged by lightning. One building was struck by a bolt which caused damage estimated at \$11,000. The damage to other buildings, however, was negligible.

If you have news of interest we will be pleased to have you call the Telegraph, No. 5.

FIGHTS LAST NIGHT

By the Associated Press  
Virginia Beach, Va. — Joey Goodman, Cleveland, knocked out Ray Mitchell, Philadelphia, (4).  
San Francisco — Madison Dix Belingham, Wash., knocked out Bobby Ray, Pittsburgh, (2).  
Des Moines, Ia. — Louis Mays, Des Moines and Bobby O'Hara, Chicago, drew, (10).

Yesterday's Stars

By the Associated Press  
Goose Goslin, Browns — Drove in four runs with a homer and single as St. Louis beat Red Sox 7 to 2.  
George Earnshaw, Athletics — Pitch-

ed his 18th victory of the season, holding Indians to eight hits.  
Freddie Lindstrom, Giants — Hit homer in the tenth to beat Cincinnati 7 to 6.  
Al Lopez, Robins — Four hits accounted for five runs in Brooklyn's 15 to 5 victory over the Cubs.  
Ray Kremer, Pirates — Held the Phillies safe to pitch 15th victory of the season.

SPORT BRIEFS

Quincy, Ill., Aug. 14 (AP)—Salina, Kan., and Springfield, Mo., will meet tonight for the regional American Legion junior baseball championship, and the right to compete in the all-western finals at Colorado Springs next week.

Salina yesterday staged two rallies to defeat Marshalltown, Ia., 10 to 9, while Springfield took a 4 to 3 pitching battle from Zeigler, Illinois champion, last night.

Chicago, Aug. 14 (AP)—Mrs. Audrey Grubbs of California again is champion woman archer of the United States.

Mrs. Grubbs yesterday completed her second straight national conquest, winning both the double national rounds and the double American rounds. Mrs. Elizabeth Rounselle of Pinehurst, N. C., finished second.

New York, Aug. 14 (AP)—The New York American says today that Jack Sharkey has agreed to terms with Mike Malloy, Chicago promoter, for a bout with Prima Carnera, Italian heavyweight, in Chicago next month. The American says that Johnny Buckley, manager for Sharkey, has agreed to accept a guarantee of \$100,000 with a privilege of 30 per cent of the receipts.

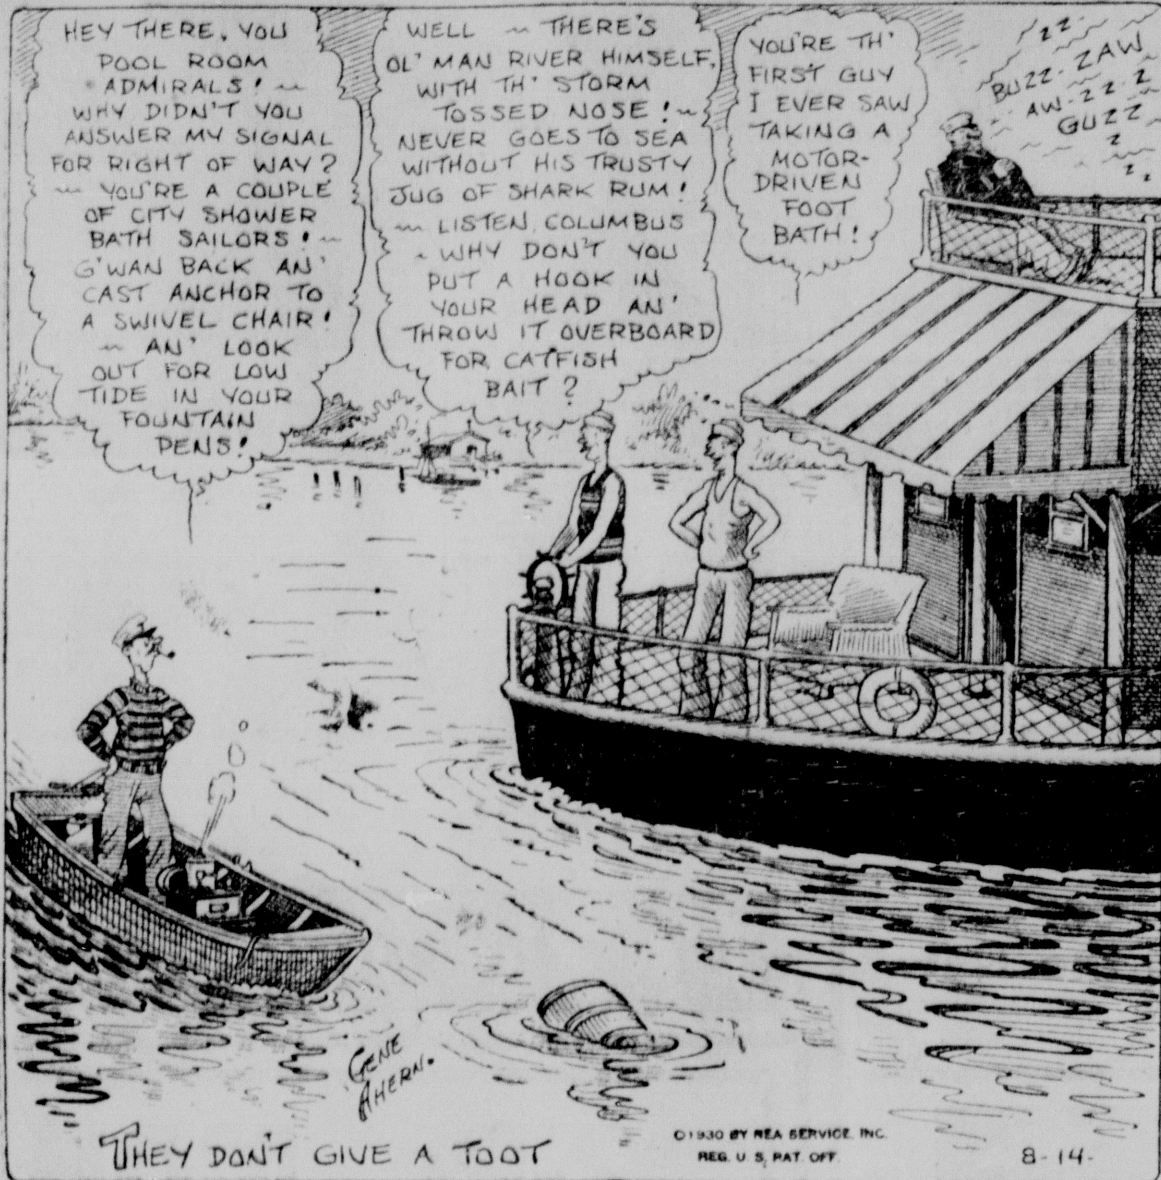

Chicago, Aug. 14 (AP)—Fifteen horses from the western division of E. R. Bradley's stable will be sold at public auction at Hawthorne Aug. 21.

The thoroughbreds which will be offered are Blind Loke, Big Star, By Mistake, Black Foot, Boiling, Bug Leary, Big Joke, Bubble Weight, Brass Monkey, Blunder Bug Hunter, Burning Up, Black Bull, Bynaninch, and Butter Toast.

Baseball Gossip

BY HUGH S. FULLERTON, JR.  
Associated Press Sports Writer  
As long as the Brooklyn Robins can keep on slugging the ball, the collapse of their pennant hopes rumored every time they have lost more than one or two games in a row, seems unlikely. Supporters of their rivals, principally the Chicago Cubs, were beginning to celebrate the Brooklyn downfall after the Robins had lost five straight and had dropped the opener of the current "crucial" series as Chicago won its sixth straight.  
But the Robins slugging reappear-

ed yesterday and showed that there still is plenty of life in the Flatbush team. A game behind and apparently headed for a worse position, the Robins overcame all their weakness by the sheer power of their bats and once more placed themselves in a virtual tie for the lead. Today the Cub margin is only two points instead of the hoped for the two games as the result of the 15 to 5 beating inflicted by Brooklyn yesterday.

In contrast to Tuesday's overtime game, Brooklyn went out yesterday early in the game and assaulted Guy Bush for enough runs to win in the first three innings. Bush fell before the booming Brooklyn bats in the third frame, which saw the Robins pile up a 5-0 lead. Four successors were only so many victims as the Robins hammered out 18 hits for 24 bases. The Cubs made 16 blows, one of them Hack Wilson's 40th home run, but with little effect. While the warfare of the Titans was going on, the New York Giants

were having difficulty in their attempt to stay on the heels of the leaders. The Giants had to come from behind to tie the Cincinnati Reds and it took a homer by Fred Lindstrom with Critz on base in the tenth to give them a 7 to 6 victory. As rain at St. Louis kept the Cards and Boston idle, the victory enabled the Giants to pick up a half game lost through Tuesday's idleness. The same rain benefitted the Pittsburgh Pirates, who gave away four runs to the Phillies in the first inning then came from behind to win their fourth straight, 8 to 4.

The three American League leaders failed to produce any change in their standing, Philadelphia, Washington and New York all coming out ahead of their western rivals. The champion Athletics made it three straight over Cleveland by a 1 to 2 score. Washington's Senators piled up an early lead of five runs off their old made, Garland Braxton, then kept the Chicago White Sox from turning

four men, which with a single interspersed, permitted two Robins to walk over the plate, and another pair of singles accounted for four more runs.  
Only three members of the Cub pitching staff were withheld from exhibition, they were ready to try to check the Flatbush maudlin today. Charlie Root, whose last performance was a three-hit victory over Boston, was the first choice, with Pat Malone and Bud Teachout next in line.  
Manager Wilbert Robinson of the eastern invaders had Adolfo Luque, the veteran Cuban, and Hollis Thurston as possibilities for today's engagement.

BASEBALL LAST NIGHT

Three Eye League:  
Springfield 3; Danville 3, (game called end of 7th account of rain).  
Peoria at Decatur—postponed—doubleheader today.

Mississippi Valley League:  
Dubuque 1; Rock Island 4.  
Davenport at Burlington—postponed—rain.  
Moline at Keokuk, called off in last of 4th. (Moline 7 Keokuk 3) account of rain.

Sugar Beet Yield Heavy  
Lamar, Colo. — (U.P.) — A heavy yield of sugar beets in the territory near Lamar is predicted by J. B. Mayhew, agriculturist for a beet sugar company.

Don't wait until it is too late!

—to correct a rundown condition

A fact you should not overlook

More red-cells in the blood! Good health and resistance to infection and disease, depend on that! Loss of appetite, underweight, sluggishness, a weakened condition, nervousness, pimples and boils are symptoms, often seen, of a deficiency of red-cells in the blood. If a lowered red-cell count is allowed to continue, ANEMIA often results. S.S.S. should be your safeguard. A hundred years

of experience has proved its usefulness in building red-cells in the blood. Take it before meals. Millions of people have found it the easiest and surest way to restore their red-blood-cells. The appetite picks up, the whole body is invigorated. Get S.S.S.—take it and possess a wonderful power of new life and vitality. Ask for the large size. At all drug stores.

KOOLMOTOR GASOLENE

HARMFUL GUM HAS BEEN REMOVED

Recent tests show that as much as 20% to 30% of unburned gasoline blows out

through the exhaust — unused and wasted — when valves do not function perfectly.

Excessive gum in gasoline causes faulty valve action — brings about delayed seating and, in some cases, complete sticking of intake valves.

Koolmotor — the original high test, anti-knock green gas — is free from harmful gum. It keeps your valves clean and free moving — always at their best. Extra care and extra refining, known as the special Cities Service mini-gum process, reduces the gum content in Koolmotor Gasolene to a harmless minimum.

When this thoroughbred of motor fuels reaches your car it is powerful and clean burning — your protection against high fuel consumption and the expense of sticky valves.

Keep your engine clean and powerful by keeping your tank full of Koolmotor — the gas that is free from harmful gum.

## ROCHELLE NEWS

ROCHELLE—With this week's issue of the Rochelle Herald, Howard A. Morris, the Herald's owner and editor, rounds out his forty-ninth year of publication. In September, Mr. and Mrs. Morris expect to celebrate their fiftieth wedding anniversary.

The trophies to be given away for prizes at the third annual farmers picnic and plowing match to be held here Thursday, August 28, are now on display at the W. F. Harkett jewelry store. They are beautiful loving cups. Cups are to be given by the Merchants for the plowing contest. The Merchants are also to give a cup for baseball.

Tractor trains and a fleet of mule drawn wagons are conveying the famous yellow bantam sweet corn packs to the factories of the Midwest Canning corporation here. While a lighter yield is anticipated due to the dry weather, the quality of the corn is excellent.

Billy Askvig, six, one of the twin sons of Mr. and Mrs. Joseph S. Askvig, who was seriously injured in a pony runaway, Sunday afternoon, is making a good recovery. Billy was able to sit up in bed today. It required nine stitches to close the wound in his head caused when the youngster was thrown from the pony and hit his head on a telephone pole.

A six-room house and lot located at 413 Third Street, Rochelle, Ill., will be sold to the highest and best bidder at 10 A. M. Saturday, August 16. This small home is located within two blocks of Lincoln Highway. The sale is ordered by the County Court to settle the Minnie Priestad estate. The Rochelle Trust & Savings Bank is Administrator, George D. O'Brien, Attorney, and C. E. Kepner, auctioneer.

Mr. and Mrs. Howard Cooper have been entertaining Mr. and Mrs. Garret Cooper and granddaughter, Vivian Cooper of Melbourne, Iowa, and Mr. and Mrs. Frank Gowdy of Santa Anna, California.

Andrew Huber, book-keeper for the Jos. S. Askvig garage, has recovered from a ten day illness spent at his home in Sterling and has resumed his position here. Miss Mabel Holmblade of the D. W. Kelley garage substituted for Mr. Huber during his illness.

Miss Clara O'ison, an assistant cashier for the Rochelle Trust & Savings Bank, is enjoying a two week's vacation.

Mr. and Mrs. A. C. Atwater and family of Wheaton motored here Tuesday and Dick remained for a visit with his grandmother, Mrs. Alice Atwater. Mr. Atwater played golf while here with C. A. Anderson. Leigh Greene, who was director of athletics at Rochelle high school here the past year, has accepted a position as coach at Carlinville, Ill., this coming year.

The Chicago colored team, "Hart-

ford Giants" will play Rochelle's community league team here Sunday Sept. 21st. Rochelle is leading the community league with 9 games won and 3 lost for a 750 per centage. Seward is runner up with 8 won and 3 lost and Lee in third place with 7 won and 4 lost. The "Rochelle Merchants," must have either Charlie Root incognito, or a second Christy Mathewson on the slab; at any rate, "Kenny" Plenge pitched another no-hit, no-run game here Sunday against Compton, which means eighteen consecutive innings without allowing a hit or a run, which is some pitching. Rochelle won from Compton 14 to 0.

The House Committee of the Rochelle Town and Country Club is composed of C. P. Unger, chairman; F. C. Kelley, W. A. Hornsby, H. J. Phelps and D. J. Hooley. At a meeting held at the club house Sunday morning several important issues were discussed.

Immediate steps to stop pollution of Kite Creek now very low on account of the drouth has been taken by the City of Rochelle and the canning interests. Rochelle's sewage is taken care of by the local sewage disposal plant very adequately but to insure that the stream would carry water pure enough for fish to live in requires additional precaution and this has been brought to the attention of the parties interested by the Isaac Walton league.

ERRORGRAMS

What's Scrambled?  
**BACINNAL**  
Prefers people of taste.

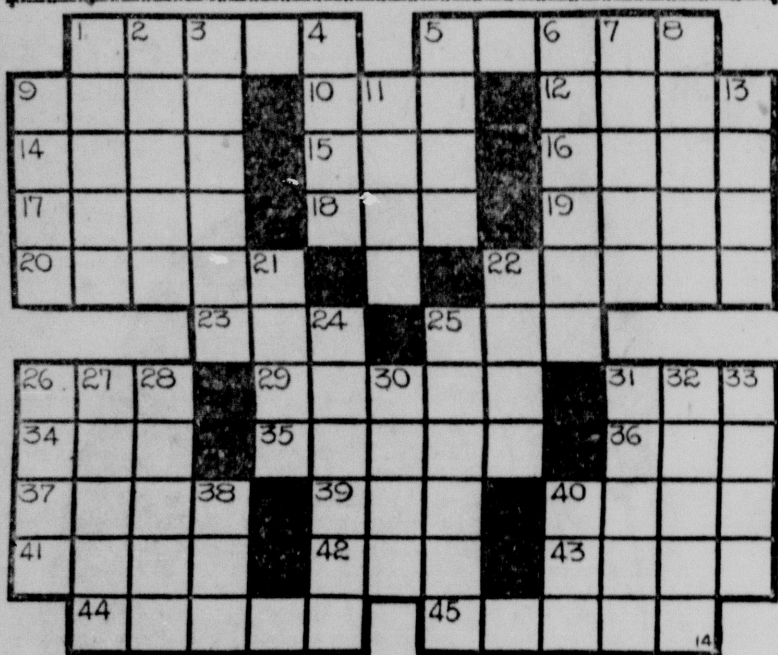

(Copyright, 1930, NEA Service, Inc.)

There are at least four mistakes in the above picture. They may pertain to grammar, history, etiquette, drawing or whatnot. See if you can find them. Then look at the scrambled word below—and unscramble it, by switching the letters around. Grade yourself 20 for each of the mistakes you find, and 20 for the word if you unscramble it. Tomorrow we'll explain the mistake and tell you the word. Then you can see how near a hundred you bat.

WEDNESDAY'S CORRECTIONS

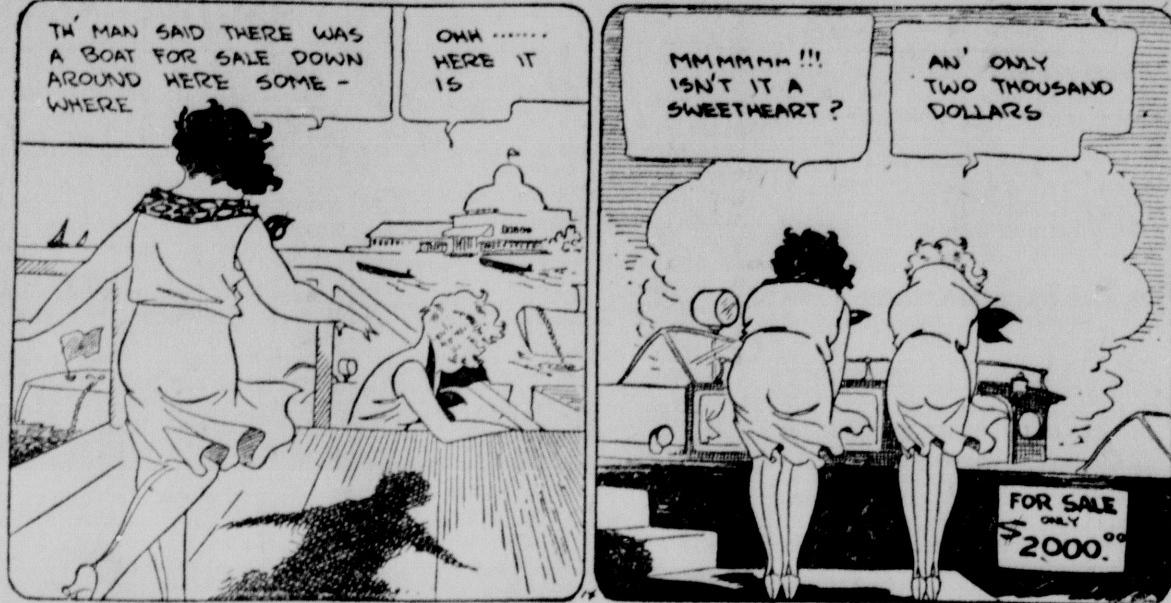

(1) Postmasters are appointed by the president, not elected. (2) The horse has a mule ear on one side. (3) There should be but one kind of leaf on a tree. (4) Barbecue, on the sign on the tree, is spelled incorrectly. (5) The scrambled word is COLOSSAL.
